

8th Annual Force Health Protection Conference
“Force Health Protection: Future Enabler”
Deployment Health Track

Tuesday, 9- Friday, 12 August 2005
 Preconference workshops: 7 & 8 August 2005
 Galt House Hotel
 Louisville, Kentucky

The primary objective of the track on Deployment-Related Healthcare is to disseminate cutting edge research and information to enhance deployment-related health care for Soldiers and families. The target audience includes primary care, occupational and environmental medicine, nurses, behavioral health, health care administrators, social scientists, clinical epidemiologists and health service researchers. Areas of focus include: (1) measuring, evaluating and improving care, (2) health services research, (3) new information systems and clinical automation, (3) clinical epidemiology and (4) clinical risk communication. Submissions involving cross-disciplinary collaborations are highly encouraged.
